Dear Sir,

We have recently completed a complete releathering of your Opus 3735 of 13 ranks, 1923. I have been approached by a newspaper columnist to gather information about the organ and church. If there is any correspondence in your files, it would be appreciated if I could obtain copies of same. Correspondence would have probably been with a Rev. Prim, who was the pastor at the time of the organ purchase.

Your help in this matter is greatly appreciated! I look forward to hearing from you.

Sincerely,

Val Courville
